

AIIM Western Canada Chapter
3rd Annual Conference

Social Networking – Business Function or Liability?

Examples of social media applications:

And what about Collaboration and Control?

Thursday and Friday - **September 24th and 25th, 2009** at the Greenwood Inn in Calgary

New ways of working = new management approaches and new technology.

How do organizations use **social networking** tools in their business decision making and project execution?

Strict regulations, litigation risk and privacy laws stress the importance of adequate **control** of information assets.

AIIM Western Canada Chapter presents this exciting topic – mark your calendars!
